BYSTANDER INTERVENTION TRAINING: FREQUENTLY ASKED QUESTIONS (FAQS)

I can't seem to sign up for a training, what do I do?
Due to high demand for trainings, spots fill up <u>fast</u>. Instead of emailing us, please check back periodically for updated monthly public training dates!

If I RSVPed, how do I get the Zoom link?
Check your email for the link! Usually it is a personalized Zoom link for cybersecurity reasons.

I got kicked off a training. What happened?
Please DO NOT email us. Instead, sign up for another training. This most likely means we are at Zoom participant capacity, and we apologize.

Can I schedule a private training for my company/organization? Yes, if your company/org/group is in Illinois! Email us at antihate@advancingjustice-chicago.org. Cost may vary depending on your company/organization.

I want a private training, but my company/organization is not based in Illinois. What do I do?
We are currently working to expand our trainings to different parts of the country. We will keep you updated.

What's the difference between a private and public training?
Private training: We allow time at the end of the training for an organization-run debrief and antiracism conversation.
Public training: Mass webinar with little personalization and a little less Zoom interaction.

I tried to attend a training, but it looks like the country I'm coming from was blocked. What do I do?
We periodically block countries and/or limit attendees due to cybersecurity reasons. Generally, people from all countries are allowed to attend.

Do you offer this training in different languages?
We are actively working to expand our trainings to other languages. We will keep you updated.

Do you offer trainings regarding other antiracism topics?
We are actively working to make more trainings. We will keep you updated!

Why are you "actively working" on so many aspects regarding the training?
This is a relatively new program and partnership - we started in August 2020 and demand has increased significantly. Please trust us when we say we are actively working :)
